

ON-SITE Support Team

ICCONS®
Serious Connections®

Working to improve training and education for contractors, project managers and design engineers.

ON-SITE

ICCONS® rapidly expanding national site support team is constantly working to improve training and education for contractors, project managers and design engineers.

Dillon Construction Fasteners together with Iccons would like to offer you an on-site event to demo and test a range of exciting new products, call now to make a time that will suit you.

If you have a fastener job that needs a solution we'll have it!

This program is an exciting new initiative and is ready to come to you now.
